

## **Electronic Educational Games Collection Development Policy**

The Electronic Games collection contains educational circulating games for use on various gaming platforms.

### **Selection Plan**

Games that are educational in purpose will be the focus of the collection. Games included in the collection will have Entertainment Software Rating Board (ESRB) ratings of eC (Early Childhood), E (Everyone), E 10+ (Everyone 10+), and T (Teen). The library will not collect games that have a rating of M (Mature) or A (Adults Only). Games that have not been rated will not be added to the collection. The library will not purchase any games that fall under the category of “Shooter”.

### **Selection Sources**

Reviews, awards, community interest, and title availability are factors in determining purchases. Metacritic and professional review journals will be used as a primary review and rating source for these games.

### **Weeding and Retention**

Weeding is done annually. Damaged or lost games will be replaced when possible.
